Dear colleagues,

Please find Volume:5 Issue:14; Year: 2017 of Bhutan's Fortnightly Animal Disease e-information for your reading.

Samdrup Jongkhar

14th July, 2017: Rabies

On 14th July, 2017, a dog died in Nagtshotoe village, Samrang of Samdrup Jongkhar Dzongkhag after showing neurological signs since 9th July, 2017 and biting a cow on 12th July 2017. Samples from the dog tested positive to Rabies Rapid Antigen Test.

Control measures are in place.

Wangdue

16th & 17th July, 2017: Black Quarter

On 16th and 17th July, 2017; three separate outbreaks of Black Quarter were reported from Hesokha, Tabchakha and Singkhey villages of Gatshetshowom geog in Wangdue Dzongkhag. Six (6) cases were identified in cattle of which 5 animals died. The investigation team from Wangdue Dzongkhag Veterinary Hospital found out three (3) cattle died from the same disease earlier and was not reported to the geog livestock office.

There are about 100 animals at risk and control measures are in place.
